

Idea Sheet

Stage 3 - Generate different possibilities before you choose.

1. Low / no-tech

Paper, objects, movement, ordinary materials. What would the learner actually do?

2. Social

Partner, teacher, or another learner. What would the learner actually do?

3. Visual / physical / interactive

Sort, compare, build, move, draw, manipulate. What would the learner actually do?

4. Digital / AI

Technology improves the learning interaction. What would the learner actually do?

5. Wild card

Combine ideas, reverse an assumption, or invent something unusual. What would the learner actually do?

SHORTLIST

Circle two ideas worth carrying forward. Star your preferred direction.
