

Task Map

Stage 2 - Break the learning task into smaller steps and find the first meaningful change.

What is the learner trying to do?

Map the task in order

#	What the learner does	What they need to notice / know / decide	Evidence / status
1			
2			
3			
4			
5			
6			

Mark the first meaningful change: working -> guessing / needing help / confusion / stopping.

Access check: could directions, reading, language, visuals, pace, device use, or another barrier explain the difficulty?

Focused challenge
